Since 1956

## FULLY DETACHABLE PLOW & WING SYSTEM

### *A smarter way to manage your plowing operation*

- This system allows the entire removal of the front hitch, front plow and wing plow within a few minutes.
- With this system, the front plow can also be detached manually from the front hitch (with the use of coupling pins)
- This system offers great advantages such as :
  - a substantial reduction of the truck tare weight
  - an increase of the truck payload capacity
  - a reduction of the garage floor space requirement as the entire plow equipment can be stored outside

Model  
L1925ONT  
wing portion  
(manually  
detachable pins)

Model  
L1925HYD  
wing portion  
(hydraulically  
detachable coupler)
