

HOPPER SPREADER

*The best performing
hopper spreader line*

HOPPER SPREADER

Superior design & engineering

- Open underbody structure for easier maintenance and clean-up
- Welded fenders (not bolted) for added durability
- Replaceable bolted conveyor floor (not welded)

LAROCHELLE offers you more than any of the other manufacturer

- 99" wide hopper construction providing up to 1 extra cu. yd. capacity
- Low center of gravity hopper design
- 41° slope on sides
- Sloped fenders to prevent snow build-up

LAROCHELLE

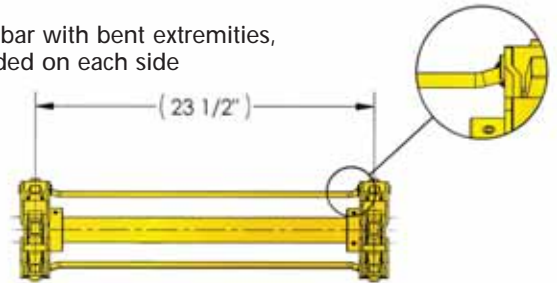

Rear spinner configuration (SC model)
 Stretched out conveyor design allows the installation
 of a rear spinner without any major modifications

EXCLUSIVE FEATURES

Longitudinal conveyor construction :
 stronger than competition

- Driving shaft : 1 3/4"
- Conveyor chain (88K)
 tougher than competition (667X)
- Extra-life sprocket with double shoulders
 for longer chain life
- Flat bar with bent extremities,
 welded on each side

- Completely sealed lighting system

OPTIONS

- Auger type cross conveyor
 (spreading left, right or both sides simultaneously)

- Removable
 protective
 sub-plate
 (return of chain)
 Prevent aggregates
 build-up on truck
 components

- Electronic spreading control
- Pre-wetting system
- Top screens
- Polyurethane spinner
- Flashing amber lights kit (4)
- Spinner deflector
- Rear ladder with safety guardrail

MODEL	DC702 SC702	DC902 SC902	DC1202 SC1202	DC1402 SC1402
Capacity	7 cu. yd.	9 cu. yd.	12 cu. yd.	14 cu. yd.
Truck application	Single axle	Single axle	Tandem	Tandem
Recommended C.A.	84"	102" @ 108"	102" @ 108"	120" @ 132"
Hopper length	120"	144"	168"	192"
Overall length	132"	156"	180"	204"
Hopper width	99"	99"	99"	99"
Overall height	65"	65"	65"	65"

* DC: Longitudinal conveyor + Cross conveyor with left hand side spinner
 * SC: Longitudinal conveyor with rear mounted spinner
 * SC: Available in removeable "slide-in" configuration for dump body
